DETAILED ACTION

1. This Office action is responsive to the following communication: Original application filed on 11 July 2003, with acknowledgement of priority date 20 February 2003.
2. Claims 1-74 are pending and present for examination. Claims 1, 17, 18, 34, 54, and 74 are independent.

Election/Restrictions

3. This application contains claims directed to the following patentably distinct species:
 - Group 1: The following claims relate to integrating content repositories into virtual content repositories:
 - Claims 1 and 2-7;
 - Claim 17;
 - Claims 18 and 19-25;
 - Claims 34, 35-38 and 39-45;
 - Claims 54, 55-58 and 59-65; and
 - Claim 74.
 - Group 2: The following claims relate to manipulating information in virtual content repositories:
 - Claims 1 and 8;
 - Claim 17;
 - Claims 18 and 26;
 - Claims 34, 35-38 and 46;
 - Claims 54, 55-58 and 66; and
 - Claim 74.
 - Group 3: The following claims relate to searching virtual content repositories:
 - Claims 1 and 9-12;
 - Claim 17;
 - Claims 18 and 27-30;
 - Claims 34, 35-38 and 47-50;
 - Claims 54, 55-58 and 67-70; and
 - Claim 74.

Art Unit: 2161

- Group 4: The following claims relate to configuring virtual content repositories:
 - Claims 1 and 13-16;
 - Claim 17;
 - Claims 18 and 31-33;
 - Claims 34, 35-38 and 51-53;
 - Claims 54, 55-58 and 71-73; and
 - Claim 74.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Art Unit: 2161

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
